"THE ART OF LIFE IS TO KNOW HOW TO ENJOY A LITTLE AND TO ENDURE MUCH"

It is very well said that children are the most precious gift of God. Their innocence, liveliness and charm fill the day with warmth and happiness. India International School, Mansarovar witnessed this happy go round day with the celebration of Children's Day with a lot of fervor and enthusiasm. The celebration began with a special assembly conducted for children where the teachers sang onstage to make the morning memorable for them. This was followed by messages on the importance of good deeds. Children were overjoyed and the happiest creatures during the class parties with games and variety of cuisines. The day was filled with lots of activities to make the children feel special and celebrate their childhood at the place which is their building block.
