

## Experience sharing on innovation by teachers and students

On the 4<sup>th</sup> day of GANIT Week, an Interactive Session, highlighting Innovations in Mathematics was held. It was attended by the students of classes 9, 10 & 11 and all the Mathematics teachers. The students gave various presentations related to establishing connections between :

1. Various areas of Mathematics
2. Mathematics and various areas of Knowledge
3. Mathematics and Real life

Both students and teachers shared their experiences. It was a very enriching and interactive session.
