

## Pitch yourself (E-igniters)

Entrepreneurship Cell, E-igniters, aims to bring together the entrepreneurial passions to converge on a common platform. Since its nascence it has aimed to bring forth the entrepreneur dwelling in students. To accomplish the goal of serving as an efficacious platform for networking and interaction, E-Cell organized 'Pitch Yourself' on 13th September, 2017 to provide an opportunity to fresh batch of students to pitch themselves as potential E-leaders. An E-leader is a student leader who drives entrepreneurship development among the students. She/He plays the role of an evangelist, a change agent and an administrator of the E-Cell. They organize programs, drive participation, evangelize entrepreneurship, create opportunities for students to practice entrepreneurship, build connects with the local entrepreneurship community, track outliers, interface with e-cell to leverage programs and resources.
