Research oriented activities have received further momentum with faculty members being registered as research supervisors with RTU, Kota and registration of research students with them for doctoral programme in the fields of Marketing, Finance and Human Resource Management. The institute is actively involved in a number of consultancy services. The overall objective of consultancy assignments is to offer the faculty and students an opportunity to deal with real and concrete needs of companies, and to gain experience of operation in factual situations. Institute's active MDP Cell conducts Management Development Programmes aimed at a more comprehensive and symbiotic relationship with business and industry. Faculty and students are encouraged to contribute quality papers and articles contributions through the institute's International journal of management and IT "OORJA" (ISSN Regn. Placement

At ISIMTC placement is considered to be a strategic activity. Immaculate planning of the placement process and activities are carried out to suit the need of the changing corporate scenario. The co-curricular activities are also aligned accordingly for grooming effective leaders and industry ready professionals. The placement cell of the institute conceives, organizes, directs and coordinates various activities so as to enhance employability of the students. These activities guide the career planning and management process, which is a cooperative effort between the student community and the institute.

Though placement is a vital outcome of the programme, the academic work of the students takes pre-eminence over placement activity, and in no case is it subordinated to placement. Though the institute shall make every effort for placement of its students, there is no obligation on the part of the institute to find placement for every student.

Some of the activities undertaken under the aegis of placement cell are as follows:

Summer Internships

A mandatory 6-8 week summer internship is a part of the academic curriculum at the end of second Semester. The training carries a weightage of 4 credits. During the training period the student has to keep his/her faculty mentor and placement co-ordinator updated about the project progress through phone/e-mail. The student is required to submit a report after the completion of the project which will be assessed and evaluated through project presentation and viva-voce by a panel of examiners.

Placements for summer projects will also be routed through the Placement Office.

Final Placements

For freshers and for the students with prior work-experience who wish to opt for lateral placement process, the final placement process is carried out according to the guidelines set by the placement committee. Under this process companies from diverse sectors evaluate the students before offering a placement or committing to a permanent hire.

Beyond Placements

Live Projects

The Placement office encourages students to apply for live projects available with the companies. Students are also permitted to arrange live projects independently, but the ultimate steering of the project will be through the Placement Committee. It is necessary for the students to submit the details of the projects undertaken in a specified format to the Placement Office.

Further the students undertaking such projects must choose an institute faculty, who would act as a Guide/ Mentor for the student and would facilitate successful execution of the project. Students are also required to submit a project report along with a certificate of completion issued by their Guide/Mentor and the industry mentor.

The Projects which are a part of the academic curriculum will not be considered as live projects.

Industry-Institute Interface

A productive interface between industry and academia, is a critical requirement for information sharing, knowledge transfer and gaining experience. The Institute therefore emphasizes on Industry-Institute Interaction.

The Placement Committee invites industry representatives from senior management and middle management to share their knowledge and expertise through a mutually beneficial forum for the exchange of ideas.

Soft Skills and Pre- Placement Training (PPT)

In order that the students are well placed and excel in their field of endeavour it is essential that they are trained on certain finer aspects of soft skills including self skills such as interpersonal skills, time management, communication skills, interview skills etc. The institute provides inputs on soft skills through workshops, training programmes, guest lectures, group discussions and mock interview sessions with feedbacks to name a few.
