Although it was difficult for teachers to ensure children are motivated for exams via online mode but the result has given a respite to everyone.

In 9GCSE, studying English as first language, I have many kinds of experience like I have been taught how to improve your communication skills, how to reflect yourself in front of anyone, while studying it I feel so amazing & interesting because I get many new skills while learning it!
Thank you!

I am very happy after getting my result, me and my family are satisfied, in fact they are very happy. It is totally beyond our expectations... This all is just because of the teachers of our school, my good wishers, parents, my motivators and the most important is my struggle regarding my studies. Thank you so much. It has been possible just because of my teachers, again I am thanking my teachers to whom I'm very grateful. Keep supporting, motivating us.
