

MCA

Placement Brochure-2018

IIIM
Jaipur

VISION

To be globally responsive and socially conscious, committed to innovation and creativity by developing and disseminating knowledge and practice for learning and resource use optimization and to emerge as an organization with an optimal blend of value based growth and future preparedness, leading to prosperity of the society and nation at large

MISSION

We stand committed with a spirit of enterprise, will to succeed, zeal to grow and objective-achievement orientation through value based education for community at large by creating an environment of intellectual stimulus, scientific orientation and social responsibility.

GOALS

- ❖ To impart education that enables the students to acquire the desired skills and abilities necessary to answer the challenges of the modern world and the process of globalization, due to technological advancements.
- ❖ To inculcate the spirit of enquiry, self expression and independent judgment amongst the students and staff.
- ❖ To enhance the ability to utilize the full potential of Intellectual Capital and Learning Resources through quality research, consultancy, scholarship and creative performance.
- ❖ To cherish the Indian value system with focus on the Indian culture, traditions and heritage, imbibing the best of the West at the same time.
- ❖ To understand and appreciate human differences in culture, gender and race, and finally to cultivate aesthetic sensibility and moral values in society at large, leading to the strengthening of the spirit of application of knowledge towards National growth.

An Invitation

Dear Leaders in Business,

Good Technocrats are not born, they are made. They are groomed by experiences & exposure to day-to-day realities of the work place. They grow in skills and knowledge through their interactions and encounters with the challenging work environment that poses problems with multiple decision situations. The threats & opportunities posed by real life work situations equip them with the know-how that no notes & theories contained in the text books can ever teach. However to prepare the future technocrats to make the most of the business world, it is essential to impart them with the attitude to learn & grow all their life.

Today's children are the first generation of the "digital age." They are being raised in a society that is changing rapidly as a result of the influx of new computer-based technologies that provide more pervasive and faster worldwide links to commerce, communication, and culture. The dramatic changes over the past decade have prompted the education system to prepare all students to use technology in ways that allows them to compete in the increasingly complex technological workplace. At IIM we work assiduously to train and educate our students by integrating computer-based technologies into the classroom teaching in an innovative & unique manner that cultivates the spirit of inquiry & openness to learning long after they, ceased to be students in the academic sense. The students at IIM gain knowledge to think both functionally & systematically & learn to deal with both the tangible & intangible aspects of varied business conditions.

The campus has fostered an environment that nurtures excellence in all undertakings including class room learnings, real time projects with corporate, consultancy & research initiatives, publications & other pioneering activities, which differentiate IIM, from other technical institutes. The increasing competition presents both greater challenges and greater opportunities. To remain competitive in an increasingly interconnected world we ensure that the curriculum and laboratory facilities equip students for the jobs of tomorrow.

IIM is ready to present something new to the students; something challenging and motivating; something within the framework of the students' own experience; and, perhaps most important, something students can succeed at with a positive learning experience. Our students achieve true excellence by striving to get ahead of themselves & not others. They are taught to become better by working harder, being smarter & more committed. Our students' population is high achieving, entrepreneurial, & spirited.

Our MCA students have secured prestigious placements with organizations of repute like TCS, Infosys, IBM, Pratham Software, Compenence, ICS Technologies, to name a few & have achieved the highest level of professional success.

Best Wishes

Dr. Ashok Gupta
Director

About MCA

The three-year full time programme is approved by AICTE, New Delhi and the MCA degree is awarded by the Rajasthan Technical University, Kota. Lateral entry directly to the 2nd year (3rd Sem.) of the program is granted to candidates with 3 years duration in BCA/B.Sc. (IT/Computer Science) with Mathematics as a subject. The curriculum is as per the University specifications and is updated from time to time to incorporate the latest developments and changes taking place in the IT industry. The contents are adapted to enable the learners to handle the demands of the industry effectively and successfully. The programme endeavours to impart quality education to the students and imbibe in them an ability to understand and assimilate all new ideas and innovations taking place in the rapidly evolving technology sector.

The MCA programme is designed to:

- enhance logical, creative and analytical skills.
- inculcate the zeal for individual excellence yet reinforce the importance of teamwork.
- foster the spirit of inquiry to keep the students updated of the changing technology.
- strengthen the spirit of application of knowledge towards national growth.
- develop the ability to utilize the full potential of human resources.

The programme provides the students a deep insight into programming techniques like Structured and Object Oriented methods along with Data warehousing, Web Applications Design & Development, DBMS and RDBMS concepts. The students are imparted latest and comprehensive knowledge of Networking, Data Communications and Information Security & Protection which are the backbone of the IT industry. Options for specialization in Artificial Intelligence Database Systems & Security, Artificial Intelligence, Mobile Computing, e-Business Technologies are provided.

Programme Structure

The programme is carefully structured to equip the budding software professionals with state-of-the-art skill sets, so that they can go out into the corporate world and achieve success.

Year 1

The first two semesters of the programme aim at familiarizing the students with the foundational aspects of the core courses along with specialized knowledge pertaining to various functional areas to develop an appreciable understanding of the discipline and inculcate appropriate programming skills.

Year 2

The next two semesters are devoted to study of Advanced Database concepts, Web Technologies, Software Development Techniques, Open Source Software and Platform independent development environment.

Year 3

The concluding year gives an insight into the current trends including Wireless Technologies, Artificial intelligence, Object Oriented Software Engineering and specialization in ERP, Embedded Systems, Geo Informatics, Bio Informatics and Information Protection & Security. It also provides the participants an opportunity to gain real life professional experience through on-the-job training. The training comprises intensive learning experience through a six month association with reputed corporate houses to hone the skills of budding IT Professionals.

Semester I

- 201 C++ and Algorithm & Data Structures
- 202 Computer Oriented Numerical and Statistical Methods.
- 203 Programming in Java.
- 204 Operating System
- 205 Data Communications and Computer Networks.
- Practical
 - 251 C++ Lab.
 - 252 CONM Lab.
 - 253 Java Lab.
 - 254 Communication & Soft Skills.

Semester II

- 401 Software Engineering.
- 402 .Net Framework & Programming in ASP.Net.
- 403 Open Source Operating System.
- 404 Artificial Intelligence.
- Elective - I*
 - * 405 - E-commerce.
 - * 406 - Compiler Design.
 - * 407 - Data Mining & Data Warehousing.
- Practical
 - 451 System Design Project.
 - 452 .Net Lab.
 - 453 Linux Lab.
 - 454 Colloquium (Group Discussion).

Semester III

- 101 Computer Architecture.
- 102 Accounting and Financial Management.
- 103 Data Base Management System.
- 104 Programming in C.
- 105 Discrete Mathematics.
- Practical
 - 151 Prgamming in C.
 - 152 DBMS Lab.
 - 153 Office Management
 - 154 Microprocessor Lab.

Semester IV

- 301 Java Technologies.
- 302 Web Technologies & Development.
- 303 Computer Graphics.
- 304 Advanced Database System.
- 305 System Analysis & Design.
- Practical
 - 351 Advanced Java Lab.
 - 352 Web Design Lab.
 - 353 Computer Graphics Lab.
 - 354 Advanced DBMS Lab.

Semester V

- 501 Object Oriented Software Engineering.
- 502 Analysis & Design of Algorithms.
- 503 Wireless Technologies.
- Elective - II*
 - * 504 - Bio-Informatics.
 - * 505 - Geo-Informatics.
 - * 506 - Information Protection & Security.
- Elective - III*
 - * 507 - Embedded Systems.
 - * 508 - ERP Systems.
 - * 509 - Soft Computing.
- Practical
 - 551 Software Development Project.
 - 552 ADA Lab.
 - 553 Wireless Technologies Lab.
 - 554 Seminar Presentation.

Semester VI

- 601 Industrial Project.
- Every student is required to spend six months in an organization of repute to work on a real time project.

The Curriculum

Our Software Development Experience

AMA:

AMA is a virtual assistant and a general chatbot for android devices. This chatbot is designed to perform daily tasks such as maintaining schedule, maintaining shopping list through voice commands and can also be used for entertainment purposes. It is an assistant that communicates through text messages, a virtual companion that integrates into websites, applications or instant messengers. Such a chat bot is an automated system of communication with users.

ACCIDENT-SAFE

The application is developed using Android Studio. It works via GPS and is used for identifying requisite facilities in accident prone areas of the city. This application alerts its users not only about the accident prone areas but also provides a list of supporting details like location of nearby hospitals, fire brigade station and police station which can be used in the time of emergency.

CRYSTALBALL4FILMS

This project work is accomplished by implementing Naïve Bayes Theorem and Decision Tree as a classification technique of Data Mining on Data Mining Tool named Orange to predict whether the upcoming Bollywood movie would be Blockbuster, Neutral or Flop. This prediction can help Production Houses in advertising the movie and also suggests the best time to release the movie.

KALPVATIKA

Kalpvatika is a health organization website which provides health therapy details. It is a live website developed on Cake Php Framework. This website educates the public about health issues, their treatment, the process of therapy, and the differences between healthy and unhealthy healing. It also educates its users about

wellness and access to reliable and unbiased health information. The website also includes the list of trained mental health professionals and approved treatment centers listed in the directories.

TOUCH OF JEWELS

This e-commerce website is developed using HTML, CSS, and PHP framework. It is a highly parameterized, user-friendly web-based application where users can place online orders and get indulged in buying and selling activities. It is a business-to-consumer web-based application which provides all the required information at a single locale. It is an e-commerce platform providing a wide array of products in accordance to the range of diverse age groups, users can also keep a count on their orders and shipments and verify the invoice against each purchase order.

SMARTSHOP

A mobile shopping application developed to facilitate online shopping. This app is equipped in showcasing the products in front of buyers, buyers putting a few products in their cart and eventually proceeding for payment. The app also enables buyers to compare two or more similar type of products with respect to their cost, features and shipping time.

FEEDBACK MANAGEMENT SYSTEM

A Faculty feedback system has been developed to provide feedback efficiently and systematically to the Head of the Department. This software has four modules student, staff, HOD and admin and all have different access rights. The student can give feedback about their lectures, examination pattern, teachers and college activities. This feedback report is checked by the Head of Department and only after approval is stored in a database.

Computing Facilities

The Computer Labs are accessible round the clock and are equipped with state-of-the-art hardware and software. The computing facilities include 45 Mbps Leased Line and the network is configured with UTP CAT 5e structured cabling with switches that provide bandwidth of 100 Mbps to each workstation. The institute also has a Hardware Lab equipped with the latest components to meet the curricular requirements. The Microsoft Academic Alliance facilitates continuous updation of Microsoft Software on new releases. The institute has an AIX Academy Lab with IBM p5 505 on POWER 5 processor, AIX OS, IBM DB2 UDB Workgroup Server Edition, SUSE Linux, and the Hummingbird PC Exceed Server.

Resources

- Microsoft Academic Alliance Program (DreamSpark)
- Development Tools
- Turbo C++, JDK 1.6.1, Oracle 9i
- Microsoft Office 2003
- Tomcat, Wamp Server, Wireless Tool Kit (WTK)
- Scilab, OMNeT++

Operating Systems

- Windows 95/98/XP/2000 Professional/2003 Server Edition/7
- RedHat Enterprise Linux, Unix, IBM AIX, SUSE Linux

Security Tools

- Microsoft Security Essentials

Hardware

- 4 Dell Laptops and 1 Apple Machine
- 60 Intel C2D Series with 2 GB RAM, 160 GB HDD
- 60 Dell I3, 4GB RAM, 500 GB HDD
- 1 IBM XEON 226 Series Server
- 1 IBM AIX P5 Series Server

- 1 Cisco 2100 Series Wireless LAN Controller
- 10 Cisco Access Points
- Microsoft IIS Server
- 15 LCD Projectors
- 1 HP Color LaserJet CP2025, 1 HP Color LaserJet 2500, 12 HP LaserJet 1020, 1 UMAX Scanners, 1 Canon Scanner
- 5 Laser Printers connected via LAN, Centralized Printing Facility in whole campus
- Microprocessor Laboratory

Internet Connection

- All the labs, offices and faculty rooms are connected to the internet through the campus intranet.
- Internet connectivity is provided using 15 switches through the campus intranet. 24/16 port switch is used in LAN, providing internet to all systems in the laboratory, classrooms, board room and seminar hall.
- Wi-Fi connectivity through 10 access points at each floor, offices and the staff rooms.

The software tools acquired to allow students to gain practical experience. The following is a list of some of these tools:

Operating Systems

- IBM AIX
- UNIX
- RedHat Enterprise Linux (RHEL 5.0)
- Windows 2003 Server Edition
- Windows XP

Programming Platforms

- Turbo C++
- Visual Studio Enterprise 6.0
- Language Compiler
- JDK 1.6.0
- PHP
- Tomcat

Database Management Systems

- Oracle 9i
- MySQL

- MS-SQL 2005 Server
- IBM DB2
- Developer 2000

Mathematical and Statistical Packages

- SCILAB
- SPSS
- EPI-INFO
- Mathematica

Graphical Packages

- Auto CAD 13.0
- Author ware Pro
- Flash
- Firework
- Dreamweaver
- 3D Studio

Application Packages

- MS Office 2000/XP/2003
- Adobe Acrobat 9 Pro
- Corel Draw 12
- Adobe PageMaker 7.0
- Power Builder 5.0, 6.0
- Adobe Photoshop 7.0
- Micro media Web Development Suite

Other Packages

- Micrografx Flowcharter
- Mastering MFC development
- Windows Exchange Server
- Humming Bird PC Exceed Server
- IBM Tivoli
- IBM LOTUS
- IBM RAD

Services provided by college to all staff members and students:

- Website, E-mail services, Online applications, Data sharing over the LAN
- 24 hours Internet access
- Antivirus and Spam protection

Placement Process

Final Placements are the end towards which the two year programme is directed. At IIIM, placement is considered a very strategic activity. The Institute's Training & Placement Cell comprising faculty and student representative organises activities and events all round the year to attract corporate houses of repute to the campus. The Placement Committee of the Institute has eminent representatives from industry and academia.

IIIM always adheres to an employer-centered procedure for campus placement. It respects the needs and expectations of the industry in its attempt to secure good placement for the students. Consistent efforts are made round the year to groom students accordingly.

Campus recruitment at IIIM offers the organizations a wide choice of candidates and provides a platform for industry-institute interaction. The placement process of the Institute is fairly simple. The companies willing to recruit IIIM management graduates are required to fill in the Placement Response Form attached herewith, ensuring that it is complete in all respects, indicating the time of interview and other relevant details. Companies desirous of conducting on-campus recruitment are requested to organise pre-placement talk followed by a suitable selection process. The Placement Cell of the institute facilitates the selection process by sending across detailed curriculum-vitae of short-listed candidates on receiving such a demand.

Many organisations express a desire to interview short-listed candidates at their own location. In such a situation, the identified candidates are granted leave to appear for interaction at the location specified by the concerned organisation.

In order to facilitate the smooth conduct of the placement process, we request the interested organisations to kindly send us the duly filled placement response form at the earliest. All correspondence regarding the placement may kindly be addressed to:
