

## Frequently Asked Questions

### What comprises of the International Wing of IIS?

At IIS we offer

**CPP: Cambridge Primary Program( Class 1<sup>st</sup> to Class 5<sup>th</sup>)**

**CLSP : Cambridge Lower Secondary Program ( class 6<sup>th</sup> to 8<sup>th</sup>)**

**IGCSE: International General Certificate of Secondary Education(Class 9<sup>th</sup> to Class 10<sup>th</sup>)**

**DP: the Diploma Program (Class 11to Class 12)**

### What is International Baccalaureate Organization?

Founded in 1968, the International Baccalaureate Organization (IBO) is a non-profit educational organization based in Geneva, Switzerland.

The IBO is an international organization, not associated with any particular country and free of any national, political or educational agendas.

The International Baccalaureate (IB) offers high quality programs of international education to a worldwide community of schools.

### How is IB different from any other board of education? Can my child cope up with IB?

The IB program is practical and application-based. It has a broader spectrum of subjects that

lead to all-round development.

IB examinations test students' knowledge, not their memory and speed. There are no externally evaluated examinations till the Middle Years Program (Class 10). The focus of the IB pedagogy is on 'how to learn' rather than 'what to learn'.

The purpose of the IB is to produce global citizens, but it can be well-integrated with the local curriculum. Hindi can be offered as a second language in the IB Diploma Program.

The IB curriculum is more challenging than educational boards like the CBSE and ICSE.

The challenge is in the quality of assignments, not in the amount of work assigned.

### What are IB World Schools?

Schools recognized by the International Baccalaureate Organization and offering the IB curriculum are known as IB World Schools.

### What is the International Baccalaureate Diploma Program-IBDP?

The IBDP is a comprehensive two-year course and is a rigorous academic program. It is designed as a pre-university program for students aged 16 to 19.

There are a wide range of courses designed to meet the interests and requirements of different students. In addition to the courses offered, it is unique because only the IBDP includes the Creativity, Activity and Service (CAS) program, the Extended Essay and the Theory of Knowledge course. Together these offer IBDP students, experiences and skills they will not find in any other program.

### What are the subjects in DP?

DP students choose one subject from each of the following six 'Subject Groups':

- **Group 1:** First Language ( Hindi/English/French)

- **Group 2:** Second Language (French *ab initio*, Hindi, English , French)
- **Group 3:** Individuals and Societies (History, Economics, Business and Management Psychology, etc)
- **Group 4:** Sciences (Biology, Chemistry, Physics and Environmental Systems)
- **Group 5:** Mathematics
- **Group 6:** Visual Arts (or a second subject from Groups 3, 4 or 5)

In addition, all DP students must study a two-year course called Theory of Knowledge (TOK); work to produce an Extended Essay (EE); and engage in Creativity, Activity, and Service (CAS).

### **What is the difference between higher level and standard level IB subjects?**

There is more breadth and depth in higher-level subjects. The content in HL subjects requires 240 teaching hours versus 150 hours for standard-level. Generally higher-level subjects are more rigorous than Standard level.

### **Which IB subjects should a student register for?**

The choice of IB subjects should be according to:

- 1) Areas of strength
- 2) Future career
- 3) University requirements.

### **What are TOK, EE and CAS?**

Theory of Knowledge is an essay of 1,200-1,600 words written on a given title (from a choice of ten), followed by a ten-minute presentation of the essay by the student in class.

The Extended Essay is an original independent research leading a DP student to produce a comprehensible written piece of 3,500-4,000 words in any chosen subject and title.

Under Creative, Activity and Service (CAS), each DP student must complete at least 150 hours of work spread over one -and-a-half years, engaging in some form of creativity, participating in sport or other physical action, and doing social service.

### **Can a student do the IGCSE and IB Diploma after completing his/ her schooling through a different board?**

A student can join the IGCSE or IB Diploma Program after completing the grade 8<sup>th</sup> and 10<sup>th</sup> respectively from CBSE, ICSE or any other State Board. The IGCSE is equivalent to 10<sup>th</sup> level qualification through CBSE. The Diploma program is equivalent to 10+2 level qualification through CBSE.

### **Is the IB recognized in India and worldwide?**

The rigor and high standards of the IBDP ensure that colleges and universities around the world recognize the IB Diploma as a superior academic program and a strong university - entry credential.

The Association of Indian Universities (AIU) rates the IB Diploma at par with Class 12 CBSE, ICSE, NIOS or State Boards. Many educational institutions and colleges have published their policies and entry criteria for IB students on their websites. For example, Delhi University colleges have specified their conditions for entry of IB students. The information is also available on the IBO website [www.ibo.org](http://www.ibo.org). Universities in over 110 countries recognize the IB Diploma and it will allow entrance to the most competitive universities around the world. The university admission authorities recognize the academic rigor of the IBDP, and value the "extra" parts of the Diploma, such as TOK, CAS and the Extended Essay.

- Most universities in Europe require the full Diploma as a qualification for entry.
- It is considered to be worth 'four and a half' A Level.
- Higher Level Courses are broadly equal to British A-Level courses.
- Higher Level courses are considered equivalent to American Advanced Placement (AP) courses. Successful IB Diploma students may be offered credit (particularly for Higher Level courses and TOK) for first year university courses in Canadian and American Universities overseas.

### **Why should I select International Board for my child?**

1. The IB Diploma has earned universal reputation for rigorous assessment, giving students access to the top colleges and universities in India and the world. IB is fast becoming the

program of choice for Indian students preparing to pursue higher education abroad.

2. The IB curriculum equips students with the tools needed to succeed in higher education, such as self-confidence, preparedness, research skills, organizational skills and being actively engaged in self learning.

3. Some universities even offer scholarships to IB diploma holders.

4. University admissions around the world are getting competitive by the day. Admission officers are increasingly looking for other evidence that a student will succeed in the university - such as exposure to quality curriculum, research abilities, an international outlook and social service - all enhanced by the IBDP.

### **What extra-curricular and sports facilities are available on campus?**

The sports facilities available are varied and numerous, so there should be something to suit everyone. Activities include the traditional team sports such as Soccer, Cricket, Volleyball and

Basketball as well as Badminton, Table tennis, Carom, Chess, Aerobics and Skating.

Fixtures take place regularly against local schools and other International Schools in the region.

Nearly all of the activities are open to both sexes and many run all the year round. In addition excursions and trekking expeditions are organized.

### **How are IB students assessed in the IBDP Program?**

There are two kinds of IB assessments: External and Internal.

Some assessment methods include portfolios, written essays, studio-work, experimental

work, oral commentaries, as well as written exams and are tailored for different learning

styles. Considering that exams may or may not reflect what a student really knows and what he or she is able to do, having a variety of assessment tools allows the IB organization to fairly assess the student's true ability.

In addition, the grading system for all the IB programs is criterion-referenced, to allow each student's performance to be measured against well-defined levels of achievement. Assessments with oral and written components are assessed by examiners worldwide and monitored by chief examiners with ample experience.

### **When are the IB exams taken?**

The IB exams are taken in May of the second year (Senior Year)

### **Is IB too hard for most students?**

The IB is designed as a model of holistic education for the mid-range student and above. Statistically speaking, most students who earned the IB Diploma worldwide were of average or above average ability. It is not a program designed only for geniuses. What the IB program requires students to have are a strong work ethic, good time-management and solid study

skills. The IB program offers courses at different levels (Higher Level and Standard Level). In addition, language courses range from introductory level to native-speaker level.

### **Career Guidance**

The goal of the College/Career Guidance Program is to provide assistance to each student as they prepare for post-secondary studies around the world. The program aims to provide students with all the available and relevant data on which to base a decision to apply and/or attend a specific college or university.

### **Are the International boards studies stressful?**

Both IGCSE and IB are rigorous two-year programs. They are not stress-free programs. The level of stress can vary from one student to another and can be reduced, depending on the student's acquisition of healthy study and organizational skills. A student who procrastinates and does not know how to manage time effectively will find it difficult to reduce the stress. All students are encouraged to complete assignments on time and meet the internal assessment deadlines. The teachers at IIS also work hard to coordinate major test and assignment deadlines, to keep student-stress to a minimum.

### **What is the profile of a successful International Baccalaureate student?**

- Excited and enthusiastic about learning,
- Self-motivated, mature, self-disciplined and goal oriented Fluent in written and oral communication
- Strong study and organizational skills and an efficient time manager Intellectually inquisitive and creative
- An independent, critical thinker Performing well academically
- Proficient in math
- Involved in school/community activities

### **How do students enroll in the IB program at IIS?**

Students and parents are invited to attend an orientation session on the International

Baccalaureate program. IB diploma aspirants will have to complete an application process

that includes:

- 1) Application form
- 2) Student records for 9<sup>th</sup> and 10<sup>th</sup> grades
- 3) Interview with DP coordinator

An IB committee comprised of the IB Coordinator and the counselor will evaluate each application carefully and make recommendations.

For any further queries, please contact,

Ms. Mala Agnihotri

IBDP Coordinator

India International School, Opp.V.T. road, Shipra Path-302020.

Email:

**Will I be able to prepare for Medical/ IIT, in case I opt for IBDP?**

**Is IBDP only for students who want to go abroad for further studies?**

**I have heard we are not allowed to go for private tuition after school?**

*This is a positive practice followed by IIS. Our own teachers have complete responsibility to guide the students throughout the program on every component. This saves your money and undue additional efforts. The same time in the evening can be utilized for self study.*

**EE and TOK are scary (what all we have heard) is it difficult' is it compulsory. Will I be able to do it?**

*TOK is unique, interesting & and challenging. Well, then you are preparing yourself to be ahead of the rest. So naturally efforts are required. At the end of it you feel proud, evolved and world ready for university education.*

**My English is not very good; will I be successful at IBDP?**

*If you are ready to work hard it should not be a constraint. Our teachers give individual attention and help you fill the gap and moreover though you are suppose to have an excellent command over English. IB programme gives \_\_\_\_\_ to MT, ML and FL too.*
