

19 April, 2023

Dear Parent,

IIS aims to stay dynamic and ever evolving, so that it can deliver better.

To further strengthen the communication between the school and the parent, the school is running a school app (IIS Jaipur) facility for which the user name and password has already been sent to you through SMS. Since all important communication with parents is done through the School App, we request you to check the School App on daily basis. This app will enable parents to access:

- Homework
- Circulars
- Transport
- Remarks
- Photos related to activities
- Fee Payment
- Attendance (1<sup>st</sup> May, 2023 onwards)

**Steps to download mobile application on your mobile:**

1. Open Google Play Store
2. Type IIS Jaipur and search
3. Install it
4. Enter the username and password given by the school (already sent via sms) or login it with your registered mobile number.
5. To add details of your second ward in your account, click on Add account option by clicking on button on the dashboard. Enter the user name and password already sent.

**Please Note:**

1. You can change the password once you have successfully logged in.
2. You must contact the class teacher if:
  - a. the School App is not working properly
  - b. you have any queries w.r.t the School App
  - c. you discontinue using the registered mobile number (for further process w.r.t. School App)

We look forward to your support in this regard.

Regards

IIS, Jpr
