

## India International School Leads the **STEM-DLD Workshop** on 29th August 2025

India International School, Mansarovar, Jaipur organized the first STEM-DLD Workshop in the city-Jaipur on August 29, 2025. The workshop aimed to bring together educators and experts to collaborate and share knowledge, ideas, and best practices in STEM education.

This first of its kind workshop provided a unique opportunity for participants to learn from each other, explore innovative teaching methodologies, and gain hands-on experience in designing and developing STEM-based projects and pedagogies.

The event featured presentations, demonstrations and interactive sessions, making it an engaging and enriching experience for all participants. "We are excited to host this workshop and provide a platform for educators to come together and share their expertise," said Ms Nidhi

Mishra, Principal, India International School. This initiative will not only enhance the teaching-learning process but also foster a culture of innovation and creativity among the students.

The workshop had 2 teacher participants from 12 leading schools of the city. The Appreciation Committee members were Prof. Y. K. Vijay, Director-CIST, the Principal DAV - Mr. Ashok Kumar Sharma and the Principal MPS Kalwar- Ms Sunita Vashistha.

This workshop was a significant step towards promoting STEM education in the city.
