

Innovation Hub Inauguration at IIS

Innovation is a gift of nature for everyone. Each individual likes to do things, activity or express ideas. In order to enhance the creativity and skill in education of basic science and engineering, IIS,

Mansarovar has established an Innovation Hub to give students an exposure not only to how great scientific innovations have evolved through small efforts of the beginner, but also to let students innovate and discover wonders of science by themselves.

This innovation Lab has been established in collaboration with Indian Association of Physics Teachers, Rajasthan chapter 6 and CDPE, University of Rajasthan. The lab was inaugurated by Professor Vikram Kumar, honorary professor, IIT, Delhi and the recipient of the most prestigious Shanti Swaroop award given in the field of scientific research. Shree Tarun Jain, secretary, Vigyan Drishticon Society, India was the special guest on the occasion.

IIS takes pride in being a part of the capacity building in the field of scientific innovations. The hub will prove to be an independent place of learning, inspiration, observations and will take the creative and innovative thinking skills of students to sky heights.

The esteemed guest, Prof Vikram addressed the students and stressed on the importance of innovations in the world. School Director, Dr. Ashok Gupta and Principal, Ms. Mala Agnihotri congratulated and praised the science department for the initiative.
