

Earth Day

Date : 22nd April 2021

Activity : Poster Making

Participating Classes : Students from classes 6 to 8

Duration : 40 min.

1. To mark the celebration of Earth day “Poster Making” activity was conducted in regular science period by science teacher.
2. The activity was conducted on A4 size sheet .
3. A day before the conduction the science teacher had informed the students about the activity and had asked them to bring the sheet and required colours in the online class.
4. On the day of conduction the students were briefed about the importance of Earth Day celebration and also the necessary instructions were given related to the activity.
5. Students submitted the poster as PDF to the science teacher on the links given by the teacher.
6. Results of the Activity were made in consultation with the Drawing Teacher

Nikita Ma’am which are as follows-
