

AMBASSADORS ON CAMPUS SECOND EDITION

The IIS Alumni Council initiated its second edition of conducting an interactive session with the Alumni bigwigs in the entrepreneurial world to share their experiences, their highs and lows and what makes them goal oriented. The three speakers were Manvendra Singh Shekhawat, the Managing Director, Suryagarh Collection, Founder Dhun; Vishal Jhalani, CEO and Founder Brown Sugar; Manish Bhudia, Founder Sukriti; Namrata Rana, Founder Pachauli. The Moderator for the day was Abhi Gupta of 2012 Batch. The IISians got an insight into the lives of these entrepreneurs. The question answer session was informative and encouraging for the students. The students also unleashed their inhibitions and threw an array of questions at the guests. Branding and Entrepreneurship is the hot plate of the business world.

It was a proud moment for IIS, as all the guests were the Alumni.

Congratulations to the Council on their second successful venture. We sincerely hope this series of 'Ambassadors On Campus' gives our students ample of industry exposure and internships in times to come.
