

IIS LEAPS INTO THE WORLD OF FUTURISTIC INVENTIONS

India International School organized its first annual RoboFest'25 on 8th of November, 2025, a day most awaited, paying off the students' hard work and showcasing fun with learning and innovation! The fest aims to ignite the curious and young minds by bringing forth their talents in not only robotics but artificial intelligence and automation as well.

The fest featured AI and app-based innovations such as Face Detection and Emotion, 3D models, Smart City programming, as well as AR/VR zones. In the Gaming Zone, competitions like Robo Soccer, Maze Solving, Robo Race, and Drone Arena added a spark of healthy competition amongst the participants and audience. Souvenir in the form of 3D-printed design were the highlight of the event.

The event map was evident with active teaching and learning. Aesthetic and futuristic models furnished a vision into the vast world of possibilities. Through each model, students demonstrated remarkable creativity, coding expertise and problem-solving skills. This event served a platform for the IISians, bringing life to their inert potential and creation.

Active participation of parents and the elite schools of Jaipur added a cherry to the cake, giving a moral boost to the scholars. Giving live demonstrations enhanced the conceptual and contextual acumen giving students an edge over their peers. The rich mouth-watering aroma of the food stalls proved a stimulant to the taste buds of young minds and they savored to their heart content.

The visiting schools expressed a thrill on experiencing this informative and interactive fest. RoboFest2025 has indeed served as a benchmark par excellence, becoming another milestone in the history of India International School.

On this occasion, the Chairperson Mr. Amit Gupta sir, with the Co-Chairperson and Director Mr. Sumit Gupta sir gave their blessings to the students and congratulated IIS on its commendable venture. Students were encouraged to continue exploring and experimenting. The Principal IIS, Ms. Nidhi Mishra ma'am praised and promoted the potent potential brought to life, expressing her appreciation on the grand success of the RoboFest'25.
