

# BUDDING INNOVATORS OF IIS SHINE AT THE STEAM SUMMER CAMP

Budding Innovators of IIS Shine at the STEAM Summer Camp SHOWCASE The STEAM Summer Camp 2026 organised by India International School in collaboration with \*ThynkEra from 18th to 23rd May 2026, concluded with a vibrant Showcase at the IIS campus on 25th May 2026. Over six days, students explored science and innovation through hands-on activities including Hydro Rockets, Catapults, and Robo Cars. The camp aimed to nurture creativity, teamwork, and scientific temperament among the young learners. At the grand finale, students confidently presented their self-designed models to parents and guests, explaining the concepts and mechanics behind each project. The Hydro Rocket launch emerged as the star attraction, drawing cheers and amazement from the audience. The Principal Ms. Nidhi Mishra congratulated all participants and applauded their ingenuity. Parents appreciated the school's initiative in providing such experiential learning platforms that go beyond textbooks. The showcase ended on an inspiring note, motivating students to continue their journey of exploration, innovation, and discovery.
